

WHAT WE DO: Collaborate with individuals from our region with genetic conditions and their families, advocates, healthcare professionals and public health professionals to ensure that individuals with heritable conditions and their families have access to quality care and appropriate genetic expertise

- Support a regional infrastructure for genetic services
- Provide education and resources to families and providers
- Facilitate the use of telehealth in genetics

WHO WE ARE: The New York-Mid-Atlantic-Caribbean (NYMAC) Regional Genetics Network is one of seven Regional Genetics Networks in the country funded by a federal (HRSA) grant. Our region includes **DC, DE, MD, NJ, NY, PA, PR, USVI, VA, and WV**, and is led by genetics providers from the NYS Department of Health, Johns Hopkins University, The University of Pittsburgh, The Ferre Institute, and evaluators from RTI International. We partner with key stakeholders including families, healthcare providers, and public health organizations.

Resources for Telegenetics Efforts

1. Free Annual Telegenetics Training

Online training modules plus live webinars. CME/CEUs

2. Telegenetics Navigation and Program Planning

- One-on-one technical assistance, support and resources
- Program planning resources including a guide and checklist

3. Telegenetics Community of Practice (TCOP)

- Email notifications and shared resources, templates, webinars and factsheets
- Opportunities for collaboration and mentorship

4. Telegenetics Education and Clinic Support

- Periodic webinars, lectures, etc to various groups on TG topics
- Small grants for TG equipment and program development

NYMAC Teams: Individual teams of 10-15 key stakeholders are being formed for each of our 10 jurisdictions to assess the needs and barriers specific to that jurisdiction and implement NYMAC funded projects to improve access to genetic services.

Educational Efforts and Opportunities

NYMAC Website: Wide array of resources from NYMAC, our collaborators, and other trusted sources, as well as updates on NYMAC projects, upcoming opportunities, and regional news.

Find a Provider Tool: Online directory of genetics clinics

NYMAC Virtual Annual Meeting: Spring 2021
Join a diverse group of regional stakeholders to hear about a wide range of topics. CEUs available
